AGRIGOLD'S

FIELD GX

Field GX combines world-class genetics with your field. We classify every one of our hybrids into genetic families based on its genetic background and agronomic characteristics. Knowing a hybrid's genetic family helps simplify management, reduce risk and maximize results in your field.

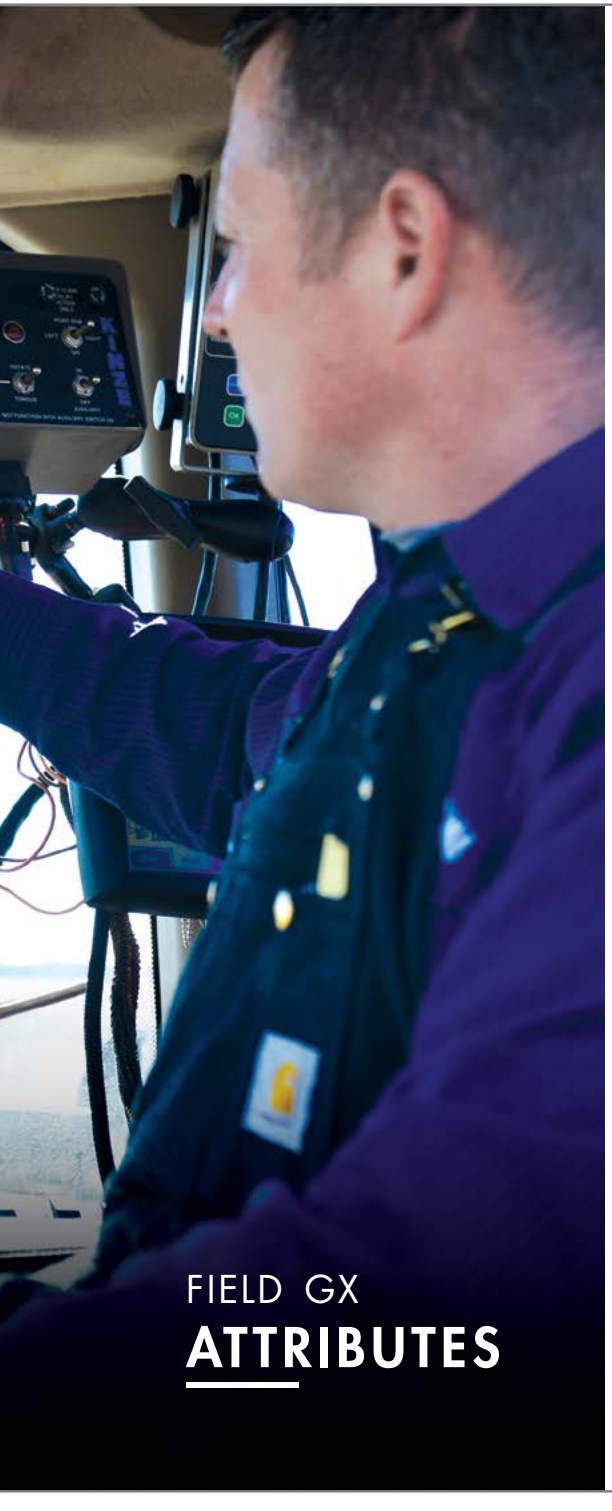
National Yield*	158.1 BPA	171.0 BPA	168.4 BPA	174.6 BPA	176.6 BPA
Growing Environment	Cool & Extremely Wet	Cool & Wet	Cool & Wet	Hot & Wet	Cool & Wet
Grain Fill Period	Long	Long	Long	Medium	Long

Every season presents unique growing conditions and environments. Utilizing genetic diversity with our Field GX families can minimize risk and bring greater yields.

Our research teams have developed one of the most diverse hybrid lineups in the industry.

**National Yield as published by the USDA.*



FIELD GX ATTRIBUTES

FIELD GX A

- Excellent plant health
- Prefers early applications of nitrogen
- Has high requirements for potassium
- Handles well or poorly drained soils
- Best in a cooler year

Emergence & Vigor	1	Stalk & Roots	3
Plant Health	4	Kernel Type	narrow
Nitrogen Application	early	Test Weight	3
Yield Capabilities	4	Ear Type	flex

FIELD GX B

- Strong emergence & vigor
- Prefers split applications of nitrogen
- Extremely high-yielding capabilities in well-drained soils
- Strong plant health & average late-season stalk strength
- Flexible ear types

Emergence & Vigor	3	Stalk & Roots	3
Plant Health	3	Kernel Type	broad
Nitrogen Application	flex	Test Weight	1
Yield Capabilities	4	Ear Type	flex

FIELD GX F

- Prefers split applications of nitrogen
- Excellent test weight & grain quality
- Adapts to wide range of soil types
- Generally fixed to semiflexible ear types
- Higher populations required for maximum yields

Emergence & Vigor	3	Stalk & Roots	2
Plant Health	2	Kernel Type	medium
Nitrogen Application	flex	Test Weight	4
Yield Capabilities	4	Ear Type	semi flex

FIELD GX G

- Responds to late applications of nitrogen
- Excellent plant health & drought tolerance
- Excellent test weight & grain quality
- Flexible ear types
- Adapts to variable soil types

Emergence & Vigor	3	Stalk & Roots	2
Plant Health	4	Kernel Type	medium
Nitrogen Application	late	Test Weight	4
Yield Capabilities	4	Ear Type	flex

FIELD GX H

- Top-end yield consistency
- Performs well at high plant populations
- Handles multiple soil types
- Very good grain quality & test weight
- Excellent southern movement

Emergence & Vigor	2	Stalk & Roots	3
Plant Health	3	Kernel Type	medium
Nitrogen Application	late	Test Weight	3
Yield Capabilities	4	Ear Type	semi flex

Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

1=average 2=above average 3=strong 4=excellent
