

YIELD CONTEST WINNERS

The NCGA National Corn Yield Contest has been organized to encourage the development of new, sustainable and innovative management practices resulting in higher yields and to show the importance of using sound cultural practices in United States corn production. AgriGold is a proud supporter of the Yield Contest and congratulates our state and national winners. **They are true Yield Masters.**

NCGA HONORABLE MENTION

In addition to the NCGA national winner list, we also want to acknowledge those growers who put in extra time, money and effort who were just shy of making the top 3 of the NCGA contest of their specific class with AgriGold products. AgriGold thanks this group of Yield Masters and considers them to be on the AgriGold Honorable Mention list for 2017.

YIELD MASTERS

AgriGold knows that getting big yields isn't easy. It requires a lot of time, patience, and knowledge about your fields and what you're planting in them. You've got to really dig deep, get under the hood, and understand what it takes to get the best results no matter what your field throws your way. That's the spirit that embodies the AgriGold Yield Masters. A Yield Master isn't someone who just grows corn—it's someone who is devoted to their craft; dedicated to overcoming obstacles and staying ahead of the curve.

It's not a club; it's a way of life.

TERRY VISSING
MARYSVILLE, INDIANA

AgriGold's access to worldwide genetic research, along with our library of agronomic knowledge and current practices, gives you the tools to succeed. If you're planting AgriGold you already understand the importance of arming yourself with everything needed to minimize risk and maximize yield. You're taking the necessary steps to master your fields and reach new levels. It takes a certain kind of farmer to recognize that there's a difference between simply getting the job done and being the best you can at what you do.

PERRY GALLOWAY
GREGORY, ARKANSAS

Yield Masters work with their AgriGold Representative & Agronomist to:

- Communicate with other AgriGold growers
- Share knowledge, tips & success stories
- Keep up to date with the latest agronomy practices, special events, and promotions
- Raise overall farm yields
